

**1 - Secures the PANASONIC CF-53**

Rotates 360° with ergonomic platform tilt. "One Hand" operation for removing and securing computer.

**2 - QUICK-LOCK**

Securely locks the laptop computer to the base of the mounting station platform.

This mounting station is specifically designed to function with the respective notebook computer. It is constructed of 10 gauge upper and 12 gauge base plate aluminium and is powder coated anti-glare black. Vibration isolators are used to dampen vibration and reduce the possibility of damage to the notebook's hard drive. The Kodiak Mounting Station typically does not obstruct any of the ports or bays on the notebook computer. The notebook computer is locked into place using a tubular key lock for strong security and are keyed the same as our intelligent docking stations for fleet uniformity.
